OVERVIEW

These innovative iFROST sliding trays are designed to be installed on a flat surface, allowing your fridge to be securely mounted and effortlessly slid out for easy access. Whether you're on a camping trip, travelling in your 4x4, or simply looking to optimise space at home, the iFROST Fridge Slider will enhance the way you use your iFROST.

KEY FEATURES:

- Provides easy access to your fridge/freezer without the hassle of lifting or moving them.
- Ensures your fridge is firmly strapped down, offering stability and security even on rough terrains.
- Can be installed on any flat surface, making it versatile for various setups including caravans, boats, and more.
- Ideal for camping, 4x4, picnics, and home use, making it easier than ever to access your fridge/freezer.

Fridge Slider	Mounting Kit	Strap Down Kit	User Guide

GETTING STARTED

NOTE: The slider must be installed on a flat surface with a minimum thickness of 12cm. This slider requires an electric drill to install.

NOTE: The slider has a manual lock – with the tab depressed, it will prevent the tray from opening even with the lever pushed down. When the tab is lifted, the slider will function as normal.

INSTALLATION GUIDE:

1. Open the slider by depressing the blue latch on the right, then pull the slide forward to reveal the fixing holes on the side rails.
2. Mark the six drilling points on the mounting surface through the slide fixing holes.
3. Drill six 7mm holes.
4. Insert the tee nuts into the holes ensuring the nuts are upright and square to the hole.
5. Flatten the tee nuts with a mallet or hammer.
6. Position the slider on the flat mounting surface – use the six 20mm bolts to affix it in place.

SECURING THE FRIDGE:

Secure your fridge using the supplied nylon straps, as shown below – ensure each one has a tight and secure connection.

SPECIFICATIONS

iFROST Fridge Slider				
Model		40L	95L	75L
Weight		13.4kg	30.5kg	25.0kg
Maximum Load		80kg	140kg	140kg

	Internal	750 x 430 x 34mm (LxWxH)	990 x 570 x 53mm (LxWxH)	905 x 538 x 53mm (LxWxH)

MAINTENANCE:

The iFROST fridge sliders should, under no circumstances, be used other than when it is mounted correctly on a smooth, level surface with no contortion of the frame.

When returning the tray to its inward position, ensure it is firmly locked into place.

This fridge slider is designed to carry fridges up to 80kg and 140kg (including fridge contents) for the 40L,75L and 95L respectively.

Please regularly inspect and clean your iFROST fridge slider to avoid chances of debris or foreign objects obstructing use of the tray.

It is advised to grease the slide mechanism with a lubricant or appropriate oil at regular intervals to avoid issues with rails sticking or catching on the frame.

TROUBLESHOOTING

If you are experiencing issues with your iFROST fridge slider, please inspect all components for defects and signs of damage. Ensure the installation is correct and it has been securely fastened.

If the fridge slider is not functioning optimally:

- Ensure that the tray is level and the surface it is installed on is stable.
- Check for any obstructions or debris in or around the sliding mechanism, clean if necessary.
- Verify that the tray has been correctly aligned and installed.
- Check the condition of straps and components for any signs of defect or damage.
- Verify that all attachment points are secure and reliable.
- Ensure all nuts and bolts have been tightened correctly and there are none missing.
- Ensure that the tray and fridge have not been overloaded beyond the 80kg weight limit of the 40L and the 140kg weight limit of the 75L/95L.

SAFETY PRECAUTIONS

For safe operation, the iFROST fridge slider must be installed and operated correctly. Please carefully read, understand, and follow all instructions in this user guide. Failure to follow these instructions may result in damage to the unit, property, death or serious injury.

WARNING:

The iFROST fridge sliders are designed to carry fridges (and their contents) up to 80kg and 140kg for the 40L and 75L/95L respectively. Do not exceed this limit.

WARNING:

The iFROST Fridge Slider must be installed on a smooth, flat surface at least 12cm thick.

WARNING:

Do not drop the iFROST fridge slider.

WARNING:

Do not use the iFROST fridge slider and its accessories to connect equipment if there is a defect.

WARNING:

Please use the recommended straps and included fixings specified in this user guide.

WARNING:

Do not disassemble or modify the iFROST fridge slider; doing so may result in a risk of death or serious injury.

REGULAR INSPECTIONS:

Regularly check the slide, components and all connections for signs of damage.
